Professional Summary

Full Stack Developer with hands-on experience in building modern web applications using React.js, Next.js, and Node.js, with production experience building AI-integrated web platforms. Experienced in REST API design, PostgreSQL, AWS deployment, and cloud storage workflows. Active open-source contributor and hackathon participant with a focus on Generative AI and intelligent application development.

Technical Skills

Languages: Python, JavaScript, SQL, Java

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB Atlas, SQL

Cloud & DevOps: AWS, Git, GitHub, Linux, Cloudflare, Cloud Hosting

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Excel

Experience

Full Stack Developer Intern (Remote) — Top Stack India (22 Aug to 23 Sep 2023)

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB for scalable, user-friendly solutions.
- Built responsive user interfaces and integrated backend services with databases to deliver dynamic web applications.
- Collaborated with development teams to improve application performance and user experience.

Projects

Seamless Legal Support for India Powered by AI

A full-stack AI-driven legal assistance platform that helps users draft, review, and manage legal documents, connect with lawyers, track case updates, and get instant query resolution through an AI chatbot.

Technologies: Next.js, TypeScript, Neon DB, Cloudinary, AWS, Google APIs.

WorkIvo (Full-Stack Job Portal Website)

Built a full-stack job portal that enables job seekers to discover and apply for jobs while allowing employers to create company profiles, post job listings, and manage hiring workflows. Implemented role-based authentication, resume and company image uploads, job search, application management, and structured database operations.

Technologies: Next.js, React, TypeScript, Tailwind CSS, Drizzle ORM, MySQL, UploadThing.

JourneyCuisine (Hospitality Platform)

Led database schema design and backend architecture development using MongoDB and Express.js while managing hotel booking workflows and user authentication systems.

Technologies: MongoDB, Express.js, Node.js.

Stock Market Data Analysis

Performed exploratory and time-series analysis on historical Bitcoin (BTC-USD) market data to identify price trends, volatility, trading patterns, and technical indicators. Developed visualizations and an executive dashboard using moving averages, RSI, Bollinger Bands, candlestick charts, daily returns, and volume analysis

Technologies: Pandas, NumPy, Matplotlib, Seaborn, Plotly, yfinance.

Open Source & Hackathons

- Active open-source contributor with participated in **Google Cloud Arcade**, GirlScript Summer of Code (GSSoC 2025-2026) Brand Ambassador — promoted open-source participation and mentored peers across college communities.
- Competed in Smart India Hackathon (SIH), HexaFall, and FrostHacks S02 National Level Hackathon.
- Contributed to **GDG MCKVIE** and **INNOVATEX** through technical collaboration and community engagement.

Education

MCKV Institute of Engineering

Bachelor of Technology in Computer Science & Engineering

2024 – 2027
ongoing

Technique Polytechnic Institute — Diploma in Computer Science & Technology

CGPA: 8.2

2021-2024

Languages

English, Bengali, Hindi
